[obs_architecture](#)

My name is Kalaitzidis Nikolaos, and I am an architect deeply motivated to create innovative designs and explore diverse architectural styles. I work with energy and passion, constantly seeking creative ways to use design to make spaces brighter and more versatile. Architecture's profound influence on my daily life fuels my love for it even more. I firmly believe that young architects can deliver high-quality designs and excel in demanding projects.

EDUCATION

- **Masters In Advanced Architecture** at IAAC, Institute of advanced technologies Catalonia 2026
- 3DPA Postgraduate in 3D Printing Architecture at IAAC 2026 - 2027
- **TU Wien** in collaboration with **AIT Advance Institute of Technology & CIL City Intelligent Lab** (Erasmus+) 2023
- **Technical University Of Crete** Architectural Engineering 2016-2022

PROFESSIONAL EXPERIENCE

- **Architect at 'Moustroufis Architects'** in Chalandri, July 2024 - 2025
Moustroufis Architects is recognised as one of Greece's leading architectural practises. The studio strives for high quality architectural design and building construction, based on simplicity, harmony of volumes and materiality in addition to excellent functionality.
- **Designer and Project Manager at a Tiny House Company**, Kefalonia (Ongoing)
Leading the design and management of a project focused on constructing prototype tiny houses, with the aim of expanding production. The project emphasizes passive home design prioritizing efficiency, affordability, and ecological sustainability. The broader vision involves creating a small-village complex to promote agritourism and alternative tourism in the region.
- **Assistant Architect for a Four-Storey Apartment Building**, Neapoli, Athens 2024
Took over an existing project originally designed and partially constructed by another engineer, managing its completion with a focus on achieving architectural aesthetics.
- **Renovation of a Small Apartment with Fireplace Installation**, Neo Heraklion, 2024
Designed and oversaw the renovation of a small apartment, including the integration of a new fireplace synthesis.
- **Renovation of a Two-Storey House (120 sq.m)** in Chania, June 2020
Supervised on-site construction and completed comprehensive designs, including 3D modeling, for the renovation of an old two-storey house.

WORKSHOP PARTICIPATIONS

RolexArts Festival "PlayStreets Athens" 22-28 May 2023. Design an alternative playground in a dense urban environment. (Mentor: Gloria Cabral, Ilias Papageorgiou. The project was presented to Anne Lacaton)

UPDATE MY CITY 26-27-28 July 2021 Chania. Public Space, Smart Technologies, Urban Health conference and workshop together with UN-HABITAT, Global Pandemic Network, Center of Mediterranean Architecture on behalf of TUC: City Wide Public Space Assessment Chania, Data gathering and illustration

EXIBITION

"Atheati poli" Heraklio 2019 **Project:** "Collective Housing"

Selected among 50 students to represent our university at Heraklion Architecture

Exhibition to design a Condo at Heraklion City

WEBINARS

"Smart City concepts for Augmented Urban Health" December 18, 2020

The GPN Working Group on Covid-19, Cities and Governance in collaboration with

Professor Valina Geropanta.

SOFTWARES

2D Drawing and 3D Modeling

Autodesk Autocad(intermediate)

Archicad26

Blender

Unity (Build an AR application

Vuforia and VisionLib were used)

Sketchup (Vray)

Lumion

Twinmotion

Rhino and GrassHoper

Adobe Creative Suite:

Photoshop

Lightroom

Illustrator

Video Editing Software:

Premiere Pro

ROBOTIC EXPIERENCE

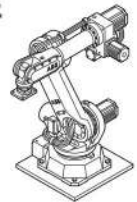

ABB 120

ABB 140

ABB IRB 140

ABB IRB 2600

UR10

GENERAL SKILLS

Photographer

Video Creator

3D Printing Knowledge

Model Making

Confident in Presentations

Good Communication Skills
